

EDUCATION

B.E CSE - Sri Eshwar College of Engineering CGPA:8.27	2024-2028
SSLC-Little Flower Matric Higher Secondary School 79.00	2021-2022
HSC – Sri Ragavendra Matric Higher Secondary School 86.6%	2023-2024

Currency Converter (Python) | 2024

- Developed a real-time currency conversion application in Python by integrating RESTful exchange rate APIs to fetch live market data.
- Engineered an intuitive Tkinter-based GUI enabling seamless multi-currency conversions, improving conversion speed and accuracy by 100% compared to manual lookup.

Bus Reservation System (Java) |2025

- Architecting a Java-based seat reservation platform leveraging file handling for persistent storage and JDBC-based database integration for real-time seat allocation, passenger profile management, and automated ticket generation, reducing manual booking errors by an estimated 90%.

Movie Recommendation System (AI/ML) |2025

- Designing and implementing a recommendation engine using hybrid collaborative filtering and content-based algorithms to analyze historical user ratings and metadata, delivering personalized movie suggestions with improved relevance (target $\geq 85\%$ precision).

Insurance Management System (Software Development)|2025

- Developing a full-stack insurance operations platform enabling policy creation, client onboarding, automated premium due reminders, and claims lifecycle tracking; integrated analytics and reporting to enhance decision-making and reduce processing time by up to 40%.

CERTIFICATIONS

Mastering Data Structures And Algorithms Using C And C++	2025
Python for Automation	2024
The Complete Introduction to DS	2024
The Complete Introduction to C Programming	2024

PROFILES

Leetcode : Solved 50+ problems | LeetCode

Skill Rack : Solved 750+ problems | Received 2 certificates | 45+ Bronzes

SKILLS

Programming - C | C++ | Python | Java

Core Concepts - DSA | DBMS | OOP

Web Technologies - HTML | CSS | JavaScript

Database - MySQL | MongoDB

Data Science & Analysis Libraries - Pandas | NumPy
